Story Health Report

Project: Ecom MVP
Generated on: 23 Oct 2026
Stories assessed: 1

PM / DM / Lead quick check: user story health, test coverage and defect status

1	0	1	100%	1	1	1
User Stories Assessed	Stories At Risk	Stories Healthy	Avg Test Case Coverage	Total Open Bugs	Reopened Bugs	Rejected / Unable to Reproduce

1. Portfolio Summary

Metric	Value
User Stories Assessed	1
Healthy (User Stories count based on bugs Priority)	1
At Risk (User Stories count based on bugs Priority)	0
Avg Test Case Coverage %	100%
Open Critical Bugs - P1	0
Open High Bugs - P2	0
Open Medium Bugs - P3	1
Open Low Bugs - P4	0
Reopened Bugs	1
Rejected / Unable to Reproduce	1

Key Observations

- Story health - Medium
- 20 acceptance criteria, 20 adequately covered, 0 with gaps, 0 not covered.
- 41 tests and 123 mapped.
- 6 bugs, with 1 open.
- Criteria needing AC-quality review: AC-01, AC-7.
- Bug 122595 is closed and does not set health.
- Bug 122589 is closed and does not set health.
- Bug 122590 is closed and does not set health.

Recommended actions

- Dev: Fix open bug 122594: Sign in screen has UI issue.
- PO: Improve the quality of AC-01 before using it as a test oracle: Expected result lacks specific redirect destination..
- PO: Improve the quality of AC-7 before using it as a test oracle: Expected result lacks specific page name..

Health status

Critical	Open P1 bug present (At Risk)
High	Open P2 bug present (At Risk)
Medium	Open P3 bug present (Healthy)
Low	Open P4 bug present (Healthy)

Review notes

Bug descriptions, repro steps, and the acceptance-criteria review.

- Bug 122589 repro steps: User name field is not accepting username
- Bug 122590 repro steps: Password field is not accepting special characters
- Bug 122591 repro steps: User is not able to login with valid username and password
- Bug 122591 is closed and does not set health.
- Open bug 122594 (P3) remains: Sign in screen has UI issue.
- Bug 122592 is closed and does not set health.

- The acceptance criterion requires successful authentication and redirection, but the only mapped test verifies an incorrect password scenario.
- Test 121227 verifies login failure for an incorrect password but does not confirm successful authentication and redirection to the dashboard.
- No test in the batch verifies successful authentication and redirection to the dashboard as required by AC-01.
- Test 121217 verifies the login button stays disabled when email is empty, matching the expected result.
- Test 121217 verifies the login button stays disabled when the email field is empty.
- Test 121217 verifies the expected result that an empty email field leaves the Login button disabled.
- Tests verify the Login button stays disabled when the password field is empty.
- Test 121218 verifies the expected result that an empty password field blocks login.
- Tests confirm the Login button remains disabled when the password field is empty.
- Test 121220 verifies the expected result of an inline validation error for an incorrectly formatted email.
- Test 121220 verifies the expected result of an inline validation error for an incorrectly formatted email.
- Test 121220 verifies the expected result of an inline validation error for an incorrectly formatted email.
- Tests 121221 and 121222 verify the expected result of invalid credentials with unregistered or wrong passwords.
- Tests 121221 and 121222 verify the expected result of invalid credentials with unregistered or wrong passwords.
- Tests 121221 and 121222 verify the expected result of invalid credentials with unregistered or wrong passwords.
- Only one test verifies password field clearing on incorrect password, but no test covers the specific case of clearing after an invalid credential failure.
- Only one test verifies error handling for incorrect credentials but does not confirm the password field is cleared.
- Only one test verifies a failed login scenario but confirms error display and field reset rather than the specific expected result of password clearing.
- Test 121224 verifies clicking Show displays the password in plain text.
- Test 121224 verifies that clicking the Show link displays the entered password in plain text.
- Test 121224 verifies that clicking the Show link displays the entered password in plain text.
- Test 121224 verifies clicking 'Hide' masks the password after it was shown.
- Test 121224 verifies that clicking Hide masks the password after it was shown.
- Test 121224 verifies the Show toggle reveals the password but lacks a corresponding test for the Hide toggle re-masking it.
- Test 121228 verifies password masking but does not check the Forgot Password link click or redirection.
- Test 121228 checks password masking behavior but no test verifies the Forgot Password link click and page redirect.
- Test 121228 checks password masking but no test verifies the Forgot Password link redirects to the recovery page.
- Tests verify the Login button stays disabled when email or password is empty and becomes enabled only with valid input.
- Tests verify the Login button remains disabled when email or password is empty.
- Tests verify login blocking for empty fields but do not confirm button enabling when only one field is filled.
- Tests verify that users remain on the login page with entered data after validation or authentication failures.
- Tests verify that users remain on the login page after validation or authentication failures.
- Tests confirm login failure keeps user on page with email retained.
- Test 121223 verifies that the password field masks characters by default when typed.
- Tests verify password masking by default and plain text display after clicking Show.
- Tests confirm password masking by default and reveal on toggle but lack negative cases for empty fields.
- Test 121229 verifies successful login with valid credentials but does not confirm redirection to the SNAP dashboard.
- Test 121227 verifies login failure with correct email but wrong password, while no test confirms successful authentication and dashboard redirection.
- Test 121227 verifies login failure with correct email and wrong password but lacks a positive case for successful authentication.
- Test 121217 verifies the expected result that login remains disabled when the email field is empty.
- Test 121217 verifies the empty email field blocks login with a validation error.

- Test 121217 verifies the empty email field blocks login while tests 121226 and 121227 confirm invalid credentials also disable the button.
- Test 121218 and 121226 verify that leaving the password field blank disables the login button.
- Test 121218 verifies the expected result that login remains disabled when the password field is blank.
- Tests confirm the Login button remains disabled when the password field is left blank.
- Test 121220 verifies the expected result of an inline validation error for an incorrectly formatted email.
- Test 121220 verifies the expected result of displaying an inline validation error for an incorrectly formatted email.
- Test 121220 verifies the expected result of displaying an inline validation error for an incorrectly formatted email.
- Tests 121221 and 121222 verify the expected result of displaying an error message for unregistered or incorrect credentials.
- Test 121221 verifies unregistered email error but test 121222 is the only one confirming password field clearing.
- Tests verify error display for unregistered email and incorrect password but do not confirm the password field is cleared.
- Tests verify toggling password visibility between masked and plain text states.
- Tests 121224 and 121225 verify the toggle password visibility behavior with expected results.
- Tests verify toggling password visibility between masked and plain text states.
- Test 121228 verifies password masking behavior instead of the Forgot Password link navigation required by AC-7.
- Test 121228 verifies password masking but does not check the Forgot Password link or redirection.
- Test 121228 verifies password masking but lacks evidence for the Forgot Password link redirection.
- Tests confirm the Login button remains disabled when email or password fields are empty.
- Tests confirm the Login button remains disabled when email or password fields are empty.
- Tests confirm the Login button remains disabled when email or password fields are empty.

Note: Bugs with status other than Resolved, Closed, Rejected / Unable to Reproduce are considered open bugs.

2. Story Health Overview

User Story ID	Story Title	Total TC	Total Bugs	Open Bugs (Based on Priority)				Reopened Bugs	Rejected / Unable to Reproduce	Test Case Coverage %	User Story Health
				P1	P2	P3	P4				
121213	SNAP Login Screen	41	6	0	0	1	0	1	1	100%	**Medium**

3. Acceptance Criteria vs Test Case Coverage

Coverage depth shows which scenario types (Positive, Negative, Adhoc) are covered by test cases for each acceptance criterion; coverage gap shows what is missing. The cells are the score's depth and gap.

Gap colour key:

Adequate | Partial / missing scenarios | No coverage at all

121213 - SNAP Login Screen

20 acceptance criteria | 20 adequately covered | 0 with gaps | 0 not covered

AC ID	Coverage Depth (AI)	Coverage Gap (AI)
AC-01	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: needs_improvement (Expected result lacks specific redirect destination.)
AC-02	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-03	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-04	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-05	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-06	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-07	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-08	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-09	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-10	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-11	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-12	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-1	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-2	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-3	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good

AC ID	Coverage Depth (AI)	Coverage Gap (AI)
AC-4	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-5	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-6	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good
AC-7	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: needs_improvement (Expected result lacks specific page name.)
AC-8	1.Positive scenarios are covered 2.Negative scenarios are covered 3.Adhoc scenarios are covered	Adequate AC quality: good

4. Bug Details

6 bugs listed, sorted by priority (P1 first) and severity irrespective of user story. Rows shaded grey are not open (Resolved / Closed / Rejected). Bold environment = escaped defect (Production / UAT).

Bug ID	Title	State	Story ID	TC ID	Priority	Severity	Assigned To	Found in Env.	Application	Created
122589	User name field is not accepting username	Resolved	121213		P1	1 - Critical	Gugan Ananth Anantha Selvan	Staging	Ecom MVP	2026-10-09
122591	User is not able to login	Resolved	121213		P1	1 - Critical	Thabitha Panneer Selvam	Staging	Ecom MVP	2026-10-09
122590	Password field is not accepting special characters	Resolved	121213		P2	2 - High	Gugan Ananth Anantha Selvan	Staging	Ecom MVP	2026-10-09
122592	Post login user is not getting navigated to dashboard in few cases	Resolved	121213		P2	2 - High	Gugan Ananth Anantha Selvan	Staging	Ecom MVP	2026-10-09
122595	Dashboard screen has UI issue	Rejected / Unable to Reproduce	121213		P2	3 - Medium	Gugan Ananth Anantha Selvan	Staging	Ecom MVP	2026-10-09
122594	Sign in screen has UI issue	Reopened	121213		P3	2 - High	Gugan Ananth Anantha Selvan	Staging	Ecom MVP	2026-10-09
